Canadian Evaluation Society

Initiating its activities in 1980, the Canadian Evaluation Society is the oldest professional association focussed on evaluation in the world; it is dedicated to the advancement of evaluation theory and practice. Evaluation is the systematic assessment of the design, implementation or results of an initiative for the purposes of learning or decision-making. Evaluation assists effective decisions, balanced judgements, and evidence-based conclusions. Evaluation supports both program and project improvement and accountability, ultimately contributing to organizational and societal value.

In British Columbia, CESBC is a volunteer and member funded organization devoted to supporting the evaluation community in the province.
