

## Evaluation Matching Service

Seeking Emerging Evaluators

British Columbia Chapter  
Canadian Evaluation Society

- Are you new to the field of evaluation and looking for practical hands-on skill development?
- Do you want to meet and work with experienced evaluators?
- Do you want to connect with organizations interested in evaluation services?

The Canadian Evaluation Society BC Chapter is offering its **Evaluation Matching Service** again this year which will bring new and emerging evaluators (like you!) in need of hands-on experience together with BC organizations in need of accessible evaluation services. New evaluators will carry out projects under the supervision and guidance of experienced evaluators who will act as evaluation coaches.

### ***We are looking for new and emerging evaluators who:***

- Have taken at least 1 university/college course in program evaluation, continuing professional education in evaluation, the CES Essential Skills Series, or have worked in an evaluation position for under 1 year.
- Are not currently working in an evaluation position.
- Are current CES members or willing to join CES to take advantage of this opportunity.

### ***We ask that our new and emerging evaluators:***

- Plan and/or carry out an evaluation project that meets the needs of the participating organization
- Dedicate about 20 hours per month over a 3-6 month period
- Complete a short survey on your experience at the mid-point & end of the project

### ***In return you will get:***

- Hands-on experience in planning and conducting an evaluation in the field
- Connections with professional mentors
- An opportunity to bring evaluation to underserved organizations
- Experience that will count toward a [Credentialed Evaluator designation](#)
